

DIRECTIONS:

Read *Full House* by Dayle Dodds

Print our printable and begin by reviewing the names of all the shapes, and then cut them out. Glue the large rectangle onto a 12 X 18 piece of construction paper. Glue the trapezoid on top of the rectangle and the rectangular prisms on the sides of the rectangle. The two pentagons go inside the trapezoid.

Have your child decide how many windows they want to glue onto the house. Then have each student decide how many they will color in yellow to represent someone in that room. Next instruct them to write the fraction of rooms that are filled on their paper. Glue on windows and then allow children to paint, color, and decorate the house as they choose.

Another option would be to write the fraction on the back and have the other children guess what the fraction is.

NEEDED:

Printable, glue, scissors, paint, markers, or crayons

Terms of use:

YOU MAY...

- Print as many copies as you would like for your OWN personal use
- Save this file on YOUR computer
- Share on a blog, facebook page, ect as long as there is a direct link to You've Got This

PLEASE DO NOT...

- Make copies to give to your fellow teachers or friends. Please share the link with them so they can download their own personal copy.
- Save to any file that can be accessed by anyone besides you. This includes dropbox, 4shared, facebook groups, shared drives, ect
- E-mail just the PDF
- Claim this printable as your own
- Post just the PDF on your blog, facebook page, ect
- Sell or profit in any way from the PDF
