YOU MAY...

Print as many copies as you would like for your OWN personal use

Save this file on YOUR computer

Share on a blog, facebook page, ect as long as there is a direct link to You've Got This

PLEASE DO NOT...

Make copies to give to your fellow teachers or friends.

Please share the link with them so they can download their own personal copy.

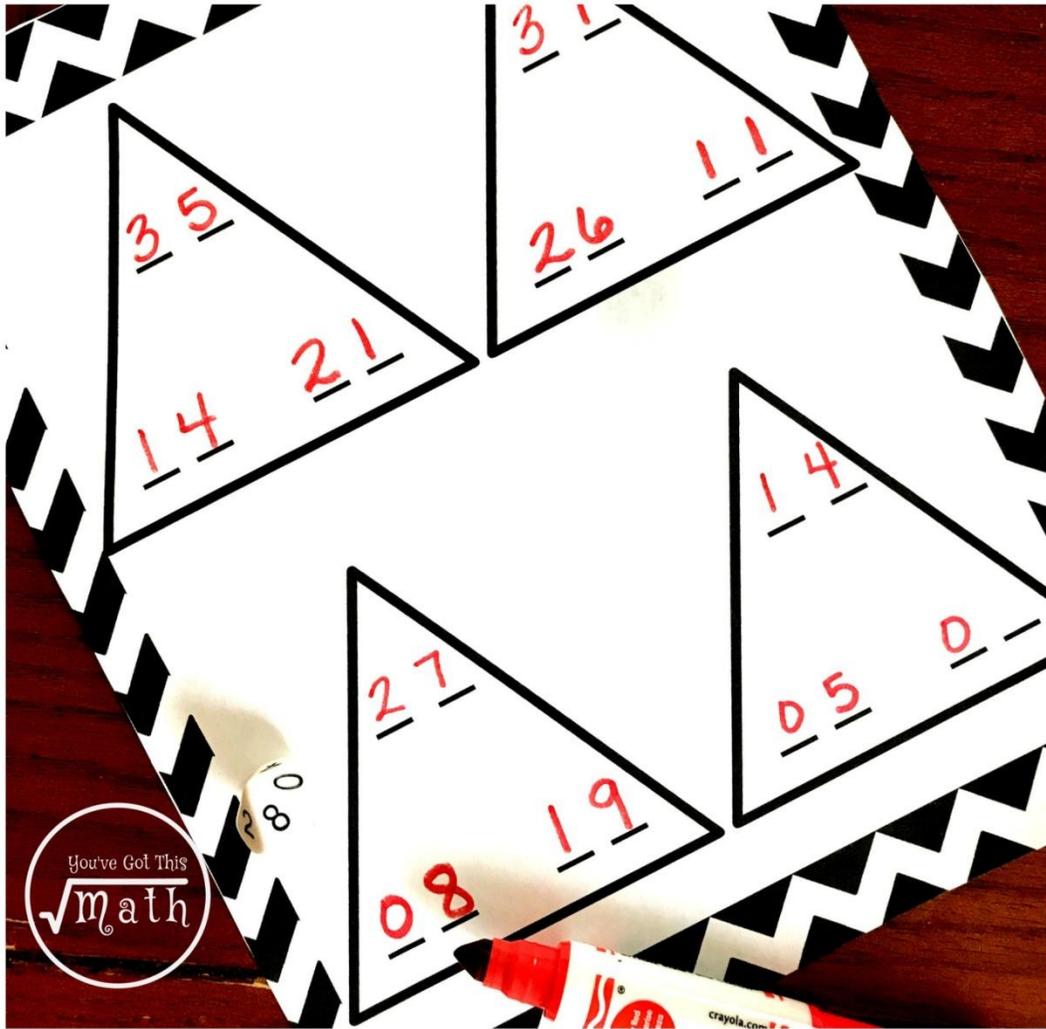

Save to any file that can be accessed by anyone besides you. This includes dropbox, 4shared, facebook groups, shared drives, ect

E-mail just the PDF

Claim this printable as your own

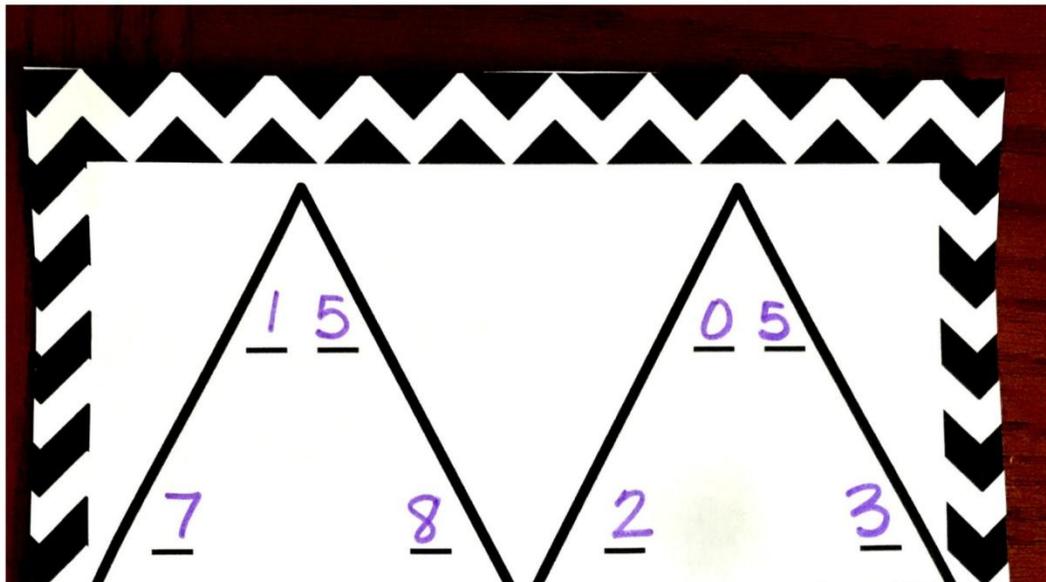

Post just the PDF on your blog, facebook page, ect

Sell or profit in any way from the PDF

FACT FAMILY Game

With Two Levels

Fact Family Game

Prep Work -

- Print off of game boards on card stock and laminate
- Gather up dry erase markers and two 10 sided die.
[Check out post on how to get one](#)

Directions -

1. Player take turns rolling two die and filling in triangles. On the first board, player must fill in the bottom of the triangles first. For the second board, players may fill in any part of the triangle.
 - Examples: A player rolls a three and seven. They can make the number 37 and place it at the top of the triangle. They would then need to fill in the bottom part of the triangle with numbers that when added would equal 37. If they rolled a 2 and 6 next, they could write in 26 and then wait to roll two 1's for 11.
 - Example: A player rolls a 1 and 4 and write the number 14 at the top. They then roll a 2 and 5. They can place the five at the bottom of the triangle with 14 in it, and the two some place else. They then would need to roll a two zeros and a nine to finish off the triangle with the 14.
2. The first player to fill in all four triangles correctly wins.
