BINGO

Multiplication Facts Game

Prep-Work:

1. Print off game boards (one for each player)
2. Gather up board markers to mark numbers, die, calculator, and a game piece.

Directions:

1. Player one rolls the die and moves that many spaces.
 2. Then player one solves the problem, and player two checks it on the calculator.
 3. If player one answered correctly, he may cover up that number on the BINGO board.
 4. Now it is player two's turn to roll and solve, while player one checks the math.
 5. Players take turn doing this until someone has five in a row.
- When a player reaches the end of the game board, they start over at the beginning again.

Multiplying Game

120	90	150	100	120
