Football Multiplication Facts Game

Prep-Work:

1. Print off game board and record score board. Laminate or place the score board in a sheet protector.
2. Gather up two nine sided die, two game pieces, a dry erase marker, and a calculator.

Directions:

1. Player one places his game piece on a twenty- yard line. Then he rolls both die and multiplies the two numbers. Player two checks the answer on the calculator.
2. Player one then uses the chart on the score board to determine how far he gets to move. Then he marks the first down.
3. This continues until he scores, or until he reaches four downs. If player one scores the they receive 7 points. If they run out of downs they do no receive any points and it is player twos turn.
4. When time is up, the player with the most points wins.

Score Board

Team 1

Team 2

<i>First down</i>	<i>Second Down</i>
<i>Third Down</i>	<i>Fourth Down</i>

<i>0 - 5</i>	<i>Lose ten yards</i>
<i>6 - 15</i>	<i>Gain 10 yards</i>
<i>16 - 30</i>	<i>Gain 20 yards</i>
<i>31 - 60</i>	<i>Gain 30 yards</i>
<i>61 to 81</i>	<i>Gain 40 yards</i>
