

# Addition And Subtraction Word Problems Upto 100

## Problem

At an Easter Sunday party, I found 50 easter eggs under my blue basket, and the bunny found 16 more. Now, children, tell me how many Easter eggs I have.

After finding all the Easter eggs, the bunny ate 20 Easter eggs. Tell me how many eggs are left.

Solve :

$$\begin{array}{r} 50 \\ +16 \\ \hline 66 \end{array}$$

$$\begin{array}{r} 66 \\ -20 \\ \hline 46 \end{array}$$

So, I have 66 easter eggs and now 46 eggs are left.

1. Sam got 53 presents for her birthday! Then, her mother came and gave her 10 more! How many presents did she have in total? \_\_\_\_\_

2. Jenny baked 37 cupcakes on Monday and 28 cupcakes on Tuesday. How many cupcakes did he bake in total? \_\_\_\_\_
