

Diwali-based finding missing number on number line worksheet

1.  18 16 8 6

2.  12 9 3

3.  29 21 17 5

4.  58 50 26 10

5. On the Diwali lamps below, mark A, B, C, & D in their estimated position
 $A = 33$ $B = 21$ $C = 57$ $D = 39$

 63 51 45 27

6. Create a series of Diwali lamps for the numbers between 75-19 that are decreasing by 8

 75 19

1.

2.

3.

4.

5. On the Diwali lamps below, mark A, B, C, & D in their estimated position

A = 77 B = 91 C = 67 D = 73

6. Create a series of Diwali lamps for the numbers between 36-1 that are decreasing by 5

1.

2.

3.

4.

5. On the Diwali lamps below, mark A, B, C, & D in their estimated position

$$A = 18 \quad B = 42 \quad C = 90 \quad D = 54$$

6. Create a series of Diwali lamps for the numbers between 38-3 that are decreasing by 5
