

Toss the coin and finish the race by solving each given puzzle

10. Find the area of a trapezoid with bases measuring 6 units and 10 units, and a height of 4 units.

9. Determine the perimeter of a regular octagon with a side length of 3 units.

8. Calculate the area of a parallelogram with bases length 5 units and height 8 units.

7. Find the perimeter of a rectangle with length 12 units and width 9 units.

6. Determine the area of a triangle with a base of 10 units and a height of 6 units.

5. Calculate the perimeter of a regular hexagon with a side length of 7 units.

4. Find the area of a circle with a radius of 6 units.

3. Determine the perimeter of a triangle with side lengths 3 units, 4 units, and 5 units.

2. Calculate the area of a rectangle with length 8 units and width 4 units.

1. Find the perimeter of a square with side length 5 units.

10. Find the area of a trapezoid with bases measuring 9 units and 13 units, and a height of 6 units.

9. Determine the perimeter of a regular hexagon with a side length of 4 units.

8. Calculate the area of a parallelogram with base length 7 units and height 10 units.

7. Find the perimeter of a rectangle with length 18 units and width 5 units.

6. Determine the area of a triangle with a base of 12 units and a height of 8 units.

5. Calculate the perimeter of a regular pentagon with a side length of 5 units.

4. Find the area of a circle with a diameter of 12 units.

3. Determine the perimeter of a triangle with side lengths 7 units, 8 units, and 10 units.

2. Calculate the area of a square with side length 9 units.

1. Find the perimeter of a rectangle with length 15 units and width 6 units.
