# Verify True or False for Each Statement. Also, Write The Correct Answer if the Statement is False.

1. Rounding 5,642 to the nearest thousand gives 6,000. _____

2. Rounding 8,328 to the nearest thousand gives 8,000. _____

3. Rounding 3,211 to the nearest thousand gives 3,500. _____

4. Rounding 9,775 to the nearest thousand gives 9,800. _____

5. Rounding 4,987 to the nearest thousand gives 5,000. _____

6. Rounding 7,452 to the nearest thousand gives 7,000. _____

7. Rounding 2,899 to the nearest thousand gives 2,900. _____

8. Rounding 6,720 to the nearest thousand gives 7,000. _____

9. Rounding 1,145 to the nearest thousand gives 1,100. _____

10. Rounding 3,859 to the nearest thousand gives 4,000. _____

1. Rounding 9,238 to the nearest thousand gives 9,200. _____

2. Rounding 6,524 to the nearest thousand gives 6,500. _____

3. Rounding 2,338 to the nearest thousand gives 2,000. _____

4. Rounding 7,867 to the nearest thousand gives 8,000. _____

5. Rounding 4,452 to the nearest thousand gives 4,500. _____

6. Rounding 1,753 to the nearest thousand gives 1,800. _____

7. Rounding 8,416 to the nearest thousand gives 8,400. _____

8. Rounding 5,279 to the nearest thousand gives 5,300. _____

9. Rounding 2,015 to the nearest thousand gives 2,100. _____

10. Rounding 9,987 to the nearest thousand gives 10,000. _____
