

Color the Area Game Instructions

- Here a picture is added to the activity sheet. The picture is divided into some parts. Every part has an expression.
- The teacher will make two groups of students to play this game.
- Then, a toss will happen between the two teams. The toss-winning team will have the first chance.
- The teacher will select the expression and specific colors for every team.
- After that, the game will start. The first team will get the expression and solve it.
- If they can solve the expression successfully, they will color the area. Otherwise, the other team will get the same problem.
- In this way, the game will continue.
- After coloring all the areas, teacher will count the areas. The team that has the highest number of areas will win the game.
