

Pizza Fraction Converting Improper Fractions to Mixed Numbers

Improper fraction has a greater or equal numerator than its denominator

Mixed number has a whole number and a proper fraction.

I'm denominator $\frac{129}{13} = 129 \div 13 =$ the quotient is 9 and the remainder is 12 $= 9 \frac{12}{13}$ remainder as numerator

numerator

quotient as whole number

Same as denominator

To convert improper fraction to mixed number first divide the numerator by denominator

$\frac{129}{13}$ of a pizza are **9** whole pizzas and $\frac{12}{13}$ of a pizza.
