Bingo Board

## Instructions

1. Teacher will roll the dice first and distribute cards to the students
2. The teacher will land on a number.
3. The students will check the cards. If the number matches with the number card of the students, then the student will say 'Bingo'.
4. Then the teacher will ask him to find the prime factors of that number.
5. The student will write down the prime factors on the board.
6. Finish the game.
