

Prime Factors of a Number Board Game

Instructions

1. Gather all the students first and sit down at a table.
2. A board will be provided by the teacher.
3. Then roll the dice.
4. After that, if a student land on a picture, he or she will draw a card.
5. On the card, there will be a number.
6. The kiddo will find the factors and prime factors of the given number.
7. If the answer is correct, he or she will proceed to the game.
8. Otherwise, he or she will be stuck on that stage.
9. The game will be continued in this manner.
10. The student who can finish the game first will win the game.
