

Add, Subtract and Color the Pencils

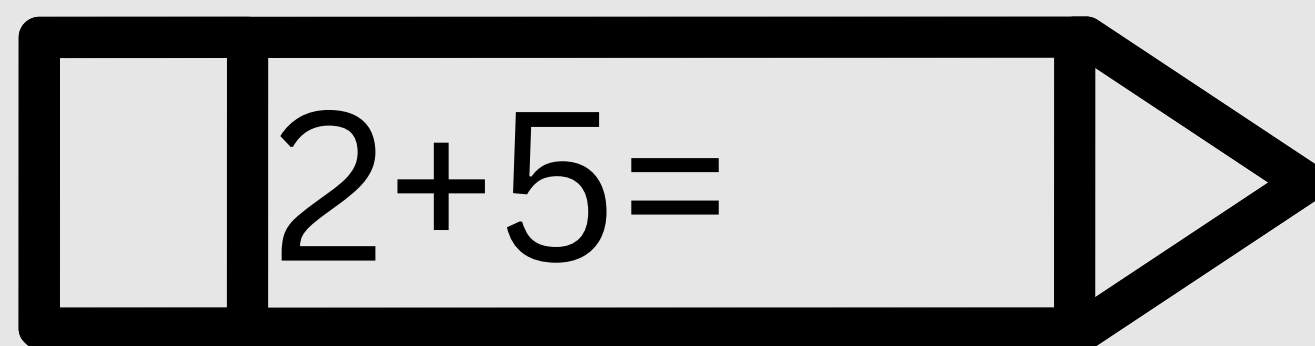

Instructions

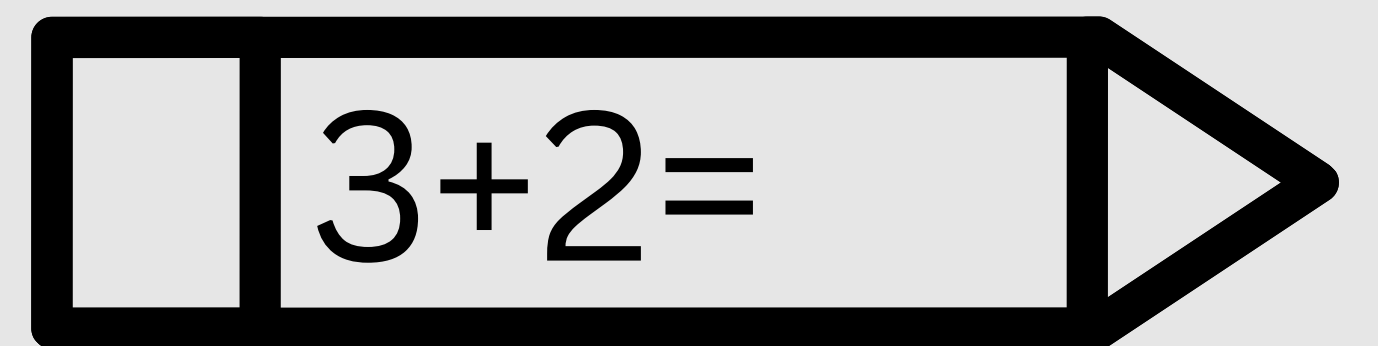

- 1. First gather all the kiddos together.**
- 2. Give them the activity sheet.**
- 3. Then, they will start the calculation one by one. You will ensure that every child is participating in the calculation.**
- 4. After that, when one calculation is done, you select a child to match the result with the right side of the sheet and check the color stated there.**
- 5. Lastly, color the pencils.**
