

Horizontal Division of Multiples of 10 with Remainders

Example :

$$\begin{array}{r}
 24 \longrightarrow \text{Quotient} \\
 \text{Divisor} \longleftarrow 60 \overline{) 1480} \longrightarrow \text{Dividend} \\
 \underline{120} \\
 280 \\
 \underline{240} \\
 40 \longrightarrow \text{Remainder}
 \end{array}$$

1. $40 \div 3 =$

2. $60 \div 7 =$

3. $80 \div 9 =$
