

Breaking Apart Ones and Tens Using Model Regrouping

$$17 + 24 = ?$$

Show 17 and 23 with .

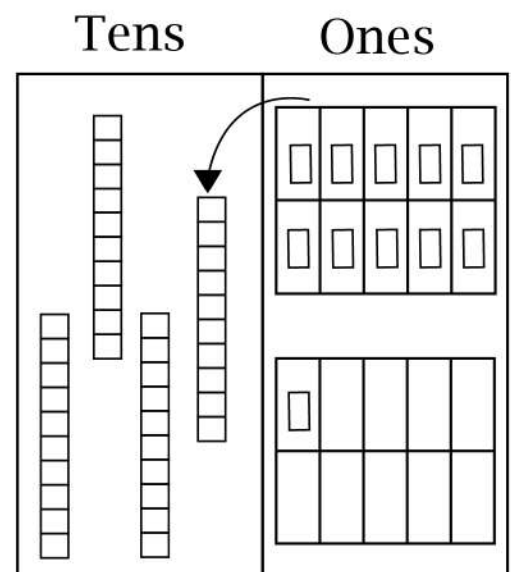

The ones are 7 and 4.

Add the ones : $7 + 4 = 11$

Trade 10 ones for 1 ten.

This is called regrouping.

Count the tens : 4 tens

Count the ones : 1 ones

4 tens 1 ones is the same as 41.

So, $17 + 24 = 41$.
