Prep Work

Print off all pages on card stock paper

Cut out the task cards and toys.

Laminate page 3 and provide children with a dry erase marker

Completing the Tasks

Students will pick up a task card.

Next, they will find the toy needed and count out the required amount. **(One to One correspondence)**

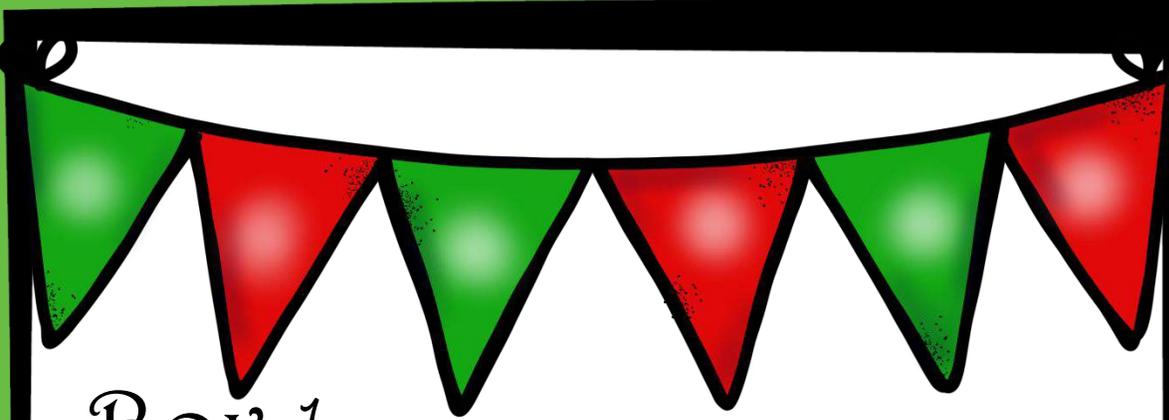

Now they get to fill the boxes, **ten frames**, on the laminated page.

Next to each box, the students write how many toys are in each box.

Finally, the children create an **equation** based on the filled in 10 frames.
