## Prep Work -

- Print off game boards on cardstock and laminate.
- Gather up game markers and a die

## Directions -

1. Children roll the die and move that many spaces. While they move they must say the numbers they land on.
2. When they get to a monster they must say the missing number.
3. If they can't, the teacher or parent should help them with it and then they got back to where they started on that turn. (This gives them the chance to practice that sequence again.)
4. The first person to reach the end space wins.
