

Crazy Squares

Prep Work -

- Print off boards and expressions.
- To make this a center laminate boards and expressions. Place Velcro on empty spaces and the back of expressions.
- Or provide scissors and glue and allow children to glue expression onto boards.

Directions -

1. Students must solve the expressions and place them in the squares so that there are not any answers that are the same in a row, column, or the four boxes that make

Crazy Squares

Adding by 10

23		21	12
